PRESIDENT: Any further discussion? Senator Anderson do you want to reply?

SENATOR ANDERSON: I think I might make a couple of comments about the questions that have been raised. One is that it would have to be a non-profit corporation as has been defined and is eligible under the current liquor law so if they are eligible for a non-profit corporation license right now they wouldn't be eligible under this provision, so it doesn't open that particular part of it up. It would still be restricted as I understand it too sale for consumption on the premises so it would be tied to a certain premises and it would be recognized by the permit or license as issued by the Liquor Commission so we are not talking about somebody being able to take this anyplace that they wish. There application for that specific location would have to go to the liquor commission and have to be approved. So it is controlled at that point. I think that the thing that you need to recognize is that the liquor commission does recognize controls over who applies, where the premisses are going to be located and the permit issued would specify those things. I think that would pretty well answer the questions that have been asked about the amendment. I renew my motion to adopt the amendment.

PRESIDENT: The question is the adoption of the amendment record your vote. Would you please vote? Record Mr. Clerk.
